Step 1: Print at 100% or "Actual size", not "Fit to page".
Step 2: Check the print. A standard credit card should match this line from end to end:

Credit card width

If it doesn't match, the sizes below will be wrong. Adjust your print settings and print again.

Millimeter ruler

Step 3: Lay a ring that fits on the circles. Your size is the circle whose line sits right at the ring's inside edge. Between two sizes? Choose the larger one.
